Verbatim recognises that children can use behavior as a means of communication and creates bespoke holistic packages tailored for each child based on the ethos of mutual respect.

At Verbatim we work to achieve this through:

- Creating a welcoming and co-operative community in which relationships are based on mutual support, respect and trust and where everybody feels valued.
- Fostering the children's self-esteem and confidence through encouragement and positive feedback, to enable them to become increasingly independent as learners.
- Providing a secure, safe and enriching environment where learning can take place with enjoyment.
- Developing the children's awareness and sensitivity towards living things and the world that we live in.

Anti-bullying is encompassed within our values, culture and ethos. We treat all cases of bullying with the utmost seriousness, and will do everything we can to identify and resolve any incident that occurs.
